

**SECTION 18 EXEMPTION FOR THE USE OF KASUMIN 2L
FOR CONTROL OF FIRE BLIGHT IN APPLES IN MICHIGAN**

KASUMIN™ 2L

**Agricultural Antibiotic
For Agricultural Use Only**

Only for Use in the Following Michigan Counties:

Berrien, Cass, Ionia, Kent, Montcalm, Newaygo, Oceana, Ottawa, and Van Buren.

EXPIRATION DATE: APRIL 1, 2011

ACTIVE INGREDIENT: Kasugamycin Hydrochloride (Equivalent to 2.0%
kasugamycin)..... 2.3 %
OTHER INGREDIENTS: 97.7 %
100.0 %

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

See First Aid and Additional Precautionary Statements

For Product Information Call: 1-866-761-9397

**Any unused, unregistered product must either be returned to the
manufacturer or distributor (unopened containers) or disposed of in
accordance with Resource Conservation and Recovery Act regulations
following the expiration of this quarantine exemption.**

Produced for:

Arysta LifeScience North America, LLC
15401 Weston Parkway, Suite 150
Cary, NC 27513

EPA File Symbol No. 10-MI-01
EPA EST. No. 70815-GA-001

Product of Japan – Repackaged in the United States
AD042210

NET CONTENTS: 1 GALLON

FIRST AID	
If in eyes:	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.

**FOR 24-HOUR EMERGENCY MEDICAL ASSISTANCE:
CALL 1-866-303-6952**

**FOR 24-HOUR CHEMICAL EMERGENCY (Spill, Leak, Fire or Accident)
ASSISTANCE:
CALL CHEMTREC 1-800-424-9300**

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

ENVIRONMENTAL HAZARDS

For terrestrial uses: Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment wash waters.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators and other handlers must wear long-sleeved shirt and long pants, chemical resistant gloves, socks and shoes. Follow the manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables are available, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

Users should:

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

GENERAL INFORMATION

Kasumin 2L is a liquid formulation containing 2 percent kasugamycin. Kasugamycin is a bactericide that controls bacteria such as *Erwinia amylovora*, which causes fire blight in pome fruit.

Resistance Management: To reduce the likelihood of bacteria developing resistance to kasugamycin, sound resistance management practices should be employed when using this product. Such practices include limiting the consecutive application of Kasumin 2L, and alternating Kasumin 2L applications with other bactericides that have a different mode of action.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on the label about personal protective equipment (PPE) and notification to workers

Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of **12 hours**.

For early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water wear; coveralls, shoes, socks, and chemical resistant gloves made of any waterproof material, such as nitrile, butyl, neoprene, and / or barrier laminate.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This recommendation must be in the possession of the user at the time of application.

Kasumin 2L may only be applied when the following conditions are met:

- Only when the disease forecasting model and/or fire blight state expert determine that the weather conditions favor disease epidemic.
- Only in disease pressure areas of Michigan where streptomycin resistance is confirmed.

When the afore-mentioned conditions are met, a maximum of 3 applications of Kasumin 2L may be made by ground equipment only at a rate of 64 fluid ounces

of product per acre. Where used, the full 64 ounce application of Kasumin 2L must be applied. Treatments of Kasumin 2L may be made no later than petal fall. Application through any type of irrigation system (i.e., chemigation) is prohibited.

Additionally, to help reduce the potential for kasugamycin resistance development, use under this exemption is subject to the following restrictions:

- Do not apply kasugamycin as the first spray of the season. It should be applied only after first spray of registered alternatives.
- A maximum of two sequential treatments of Kasumin 2L are permitted.
- Do not use in orchards in which the soil has been fertilized with animal manure. This restriction addresses concerns that kasugamycin-resistance could be transferred to *E. coli* in the feces.
- Do not use the alternate row method of application.

Kasumin 2L must be applied using properly calibrated, conventional ground application equipment designed for use in tree crops. Use sufficient water volume to obtain thorough uniform coverage of all plant surfaces, especially open blooms.

Additives: The addition of a wetting agent or spreader/sticker may enhance efficacy of Kasumin 2L.

For Control of Fire Blight in Apples

Disease Control	Application Rate	Application Timing
Fire Blight	64 fl oz/A in 100 gallons of water	<ul style="list-style-type: none"> ▪ Begin applications during bloom when conditions favor disease development. ▪ Repeat applications at 3-6 day intervals or when conditions favor disease development.
Notes: <ul style="list-style-type: none"> • Spray volume must be sufficient to provide good coverage of treated foliage. • Reduced spray volumes may be utilized for small trees where complete coverage can be obtained with a less than 100 gallons of water per acre. • Do not apply Kasumin 2L by air. 		

STORAGE AND DISPOSAL

Non-refillable container. Do not reuse or refill this container.

Offer for recycling if available. Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in a dry place away from excessive heat. Do not store near food or feed. Store in original container only.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be

disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling or puncture and dispose of in a sanitary landfill, or (if allowed by State and local authorities) by burning. If burned, stay out of smoke.

WARRANTY AND DISCLAIMER STATEMENT

The directions for use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risks associated with the use of this product. Such risks may arise from weather conditions, soil factors, off-target movement, unconventional farming techniques, the presence of other materials, the manner of use or application, or other unknown factors, all of which are beyond the control of Arysta LifeScience North America, LLC ("Arysta"), and can cause crop injury, injury to non-target crops or plants, ineffectiveness of the product, or other unintended consequences. All such risks shall be assumed by the user or buyer.

Arysta warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use, subject to the inherent risks described above, when used in accordance with the Directions for Use under normal conditions. This warranty does not extend to the use of this product contrary to label instructions or under conditions not reasonably foreseeable to Arysta, and is subject to the inherent risks described above.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, ARYSTA DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, ARYSTA, MANUFACTURER, AND SELLER DISCLAIM AND SHALL NOT BE LIABLE FOR ANY SPECIAL, INCIDENTAL, INDIRECT, OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE, HANDLING, APPLICATION, STORAGE, OR DISPOSAL OF THIS PRODUCT OR FOR DAMAGES IN THE NATURE OF PENALTIES, AND THE USER AND BUYER WAIVE ANY RIGHT THAT THEY MAY HAVE TO SUCH DAMAGES. NO AGENT, REPRESENTATIVE OR EMPLOYEE OF ARYSTA IS AUTHORIZED TO MAKE ANY WARRANTY, GUARANTEE OR REPRESENTATION BEYOND THOSE CONTAINED HEREIN OR TO MODIFY THE WARRANTIES CONTAINED HEREIN. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THE EXCLUSIVE REMEDY OF THE USER OR BUYER, AND THE TOTAL LIABILITY OF ARYSTA, MANUFACTURER, AND SELLER, SHALL BE LIMITED TO THE PURCHASE PRICE PAID, OR AT ARYSTA'S ELECTION, THE REPLACEMENT OF THE PRODUCT.
